

• Single Dose Amino Acids •

Arginine5000

Description

Food for special medical purposes.

An orange flavour, powdered arginine amino acid supplement. With Sweetener.

Indications

For the dietary management of inborn errors of metabolism requiring arginine supplementation.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Each 7.6g sachet of Arginine5000 provides 5000mg of L-Arginine.

Preparation Guidelines

Arginine5000 can be taken as a low volume drink.

1. Empty the contents of the sachet into a beaker.
2. Add at least 50ml of cold water. Secure lid and shake well for 10 seconds.
3. Drink immediately.

For best results the product should be freshly prepared and consumed immediately. Important – water or permitted drinks should be taken after Arginine5000.

IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of metabolism under strict medical supervision.

Suitable for over 3 years of age.

Not for use as a sole source of nutrition.

For enteral use only.
