### Description

#### Food for special medical purposes.

Basecal200<sup>®</sup> is a powdered protein free feed, containing carbohydrate, fat, vitamins, minerals, trace elements and the long chain polyunsaturated fatty acids (LCPs); Arachidonic acid (AA) and Docosahexaenoic acid (DHA).

#### Indications

Basecal200 is for the dietary management of inborn errors of protein metabolism requiring a low protein diet from 3 years of age.

### **Dosage and Administration**

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

### Basecal200 (43g) = 200kcal.

### **Preparation Guidelines**

For the standard dilution of 1kcal/ml:

Empty the contents of the sachet into the beaker.

Add cold water to make the final volume to 200ml.

Replace lid and shake well for 10 seconds

Basecal200 is now ready to use.

For best results, basecal200 should be freshly prepared and where possible used immediately. Any unused basecal200 should be refrigerated. Discard any remaining product 24 hours after preparation.

### Tube feeding

Basecal200 can be used as part of a modular feed. Use as directed by your clinician or dietitian.
