EXTENSIVE HA™

SIZE: 400g tin (Carton contains 6 x 400g tins)

EXTENSIVE HA™ is a specialised, hypoallergenic infant formula, suitable for mild to moderate Cow's Milk Protein Allergy (CMPA).

EXTENSIVE HA™ is an extensively hydrolysed, whey based infant formula, which is nutritionally complete and suitable as a sole source of nutrition from birth, or supplementary feeding from 6 months of age.

Features

- Specifically formulated to support allergy symptoms associated with CMPA
- Contains a unique blend of scientifically researched ingredients - The first and only eHF with two Human Milk Oligosaccharides (HMOs)* plus lactose
- Tolerated by >98% of infants with confirmed CMPA1
- Lowest allergenicity profile of all whey-based eHFs tested2
- Suitable from birth onwards
- Halal certified
- Suitable as a sole source of nutrition from birth, or supplementary feeding from 6 months of age.

*Structurally identical to those found in breast milk

Clinical Indications

EXTENSIVE HA™ is a special medical purpose product for infants, formulated for infants with Cow's Milk Protein Allergy, for use only under medical supervision. This product is not suitable for general use.

Preparation

1. Wash hands before preparing baby's formula.
2. Wash bottle, teat and cap thoroughly until no formula remains.
3. Boil bottle, teat and cap for 5 min. Leave covered until use.
4. Boil drinking water for 5 min; allow to cool.
5. Consult feeding table, pour exact amount of lukewarm water (40°C) into boiled bottle.
6. Only use scoop from this can and level using special leveller at can opening.
7. Consult feeding table, add exact number of level scoops for the age of baby. Replace lid firmly.
8. Shake bottle vigorously until powder fully dissolved; feed immediately.
9. Close the can tightly after each use and store in a cool dry place, before and after opening.

Only prepare one bottle at a time. Feed immediately and follow the instructions exactly. Do not keep unfinished bottle, discard the contents. Always hold baby while feeding. Leaving baby unattended may cause choking.

WARNING: Follow instructions exactly. Prepare bottles and teats as directed. Do not change proportions of powder except on medical advice. Incorrect preparation can make your baby very ill.
