NOVASOURCE® Renal

SIZE: 200ml Bottle (Carton contains 24 x 200ml Bottles)

Available in 1 flavour: - Vanilla flavour

NOVASOURCE® Renal is 2.0 kcal/mL with a high protein content. It is low in sodium and potassium, and lower in phosphorus for the dietary management of individuals with chronic or acute renal disease and for those requiring electrolyte restrictions. It is nutritionally complete and calorically dense for volume restricted diets. It is suitable for oral or tube feed use.

Suitable for people on a low FODMAP diet. (One serve of this product can assist with following the Monash University Low FODMAP diet™. A strict low FODMAP diet should not be commenced without supervision from a healthcare professional.)

NOVASOURCE® Renal is a food for special medical purposes specifically formulated for the dietary management of people with renal disease whose nutritional intake may not be adequate. Must be used under medical supervision.

Energy Density = 2.0 kcal/ml = 8.4 kJ/ml Energy Distribution - Protein 18% (Sodium caseinates, calcium caseinates and soy protein isolates) - Carbohydrate 37% - Fat 45% Glycaemic Index = 46 (Low GI)
Osmolality = 650 mOsm/kg water Osmolarity = 460 mOsm/L Water Content = 71g per 100mL

- Suitable for Vegetarians
- No Gluten Containing Ingredients
- Halal Certified
- Contains Dairy
- Nutritionally Complete
- Contains Soy

Clinical Indications

- Acute renal failure
- Fluid restrictions
- Chronic renal failure
- Electrolyte restrictions

SHAKE WELL BEFORE USE

DIRECTIONS FOR USE: TUBE FEEDING: Pour directly into tube feeding container. Adjust formula flow rate and volume to patient's condition and tolerance. Provide additional water to meet fluid requirements. Avoid contamination during preparation and use. Do not add food or drugs, if product is tube-fed.

ORAL FEEDING: Chill before serving.

STORAGE: UNOPENED, STORE IN A COOL AND DRY PLACE. ONCE OPENED, COVER, REFRIGERATE AND USE WITHIN 24 HOURS. IF POURED OUT OF THE PACK, COVER TIGHTLY AND USE WITHIN 6 HOURS.

RECOMMENDED DAILY INTAKE: Up to 5 bottles a day depending on patient's fluid and protein requirement or restrictions, or as recommended by a healthcare professional
