

Vitabite™

ACBS GMS PBS

Description

Food for special medical purposes.

Vitabite™ is a low protein, high energy, chocolate flavour bar.

Indications

Vitabite is suitable for the dietary management of children from 1 year of age and adults on protein restricted diets.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Preparation Guidelines

Vitabite can be eaten as a snack or incorporated into the diet in a number of ways e.g. it can be melted and used to coat permitted cereal or fruit.

Serving suggestions are available on request

IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of metabolism, liver or renal disease under strict medical supervision.

Suitable from 1 year of age.

Not for use as a sole source of nutrition.

For enteral use only.
