PKU **air**®

Life's better when you lighten up.

The lowest calorie ready-to-drink protein substitute for PKU*.
 Specifically designed for teens and adults.

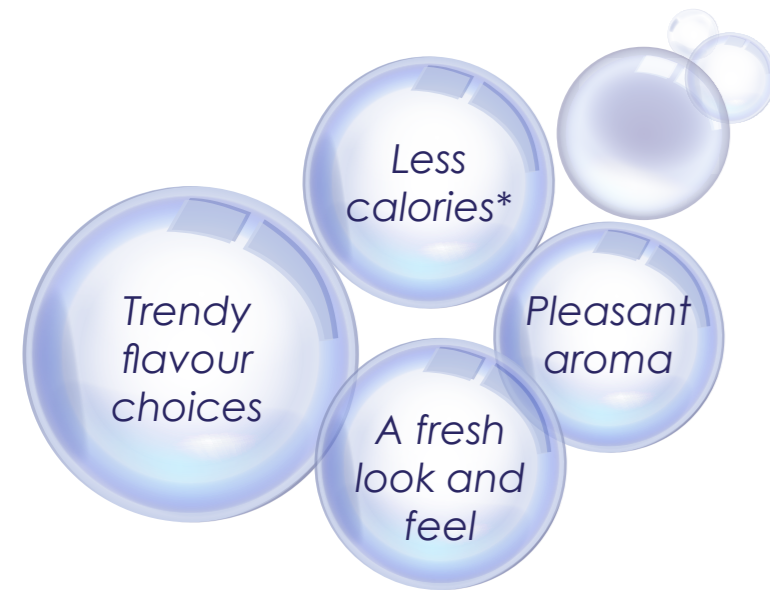

*Data on file

PKU air, a product for a new PKU generation.

The number of adults with PKU on diet is increasing, so PKUair was developed for older teens and adults, to accommodate this growing population group.

PKUair can be incorporated into the lifestyle of adolescents and young adults; it can be transported outside of the home environment and consumed on the go. It's also available in 5 unique flavours, therefore, taste fatigue is rarely an issue.

PKUair was designed using Health Care Professionals and Patient feedback-

The lowest calorie ready-to-feed protein substitute for PKU*. Specifically designed with teens and adults in mind.

Everything you trust about cooler, now with new colours, less calories and a fresh look.

PKU air... a new taste experience

*Data on file

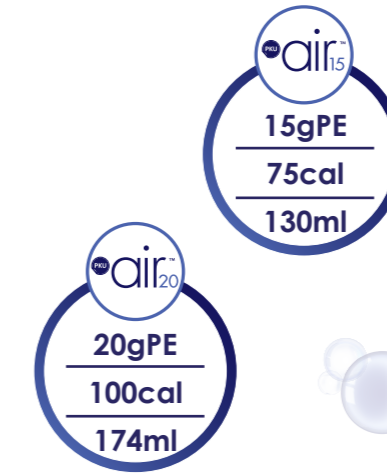

PKU air... a lower calorie option

PKU air is Vitaflo's lowest calorie protein substitute, providing nearly 25% less calories than PKU Cooler, making it an ideal support for those aiming for a target weight.

PKU air is ideal...

- if a reduced calorie diet is indicated
- if patient perception of calorie content of product is a barrier to compliance

PKU air can provide a typical daily 60g PE (protein equivalent) in 300 calories.

PKU air... a fresh modern look

Vitaflo believe that product composition is just one part of making a great product for your patients. The overall look is also important to It's appeal.

Current product options may lose their appeal to older teens and adults if they are perceived as more child orientated.

The fresh look of PKU air helps patients feel comfortable when taking it out and about.

*Data on file

We asked patients what they thought of the taste and smell of PKU air

87% said PKU air smelled better than their current protein substitute*

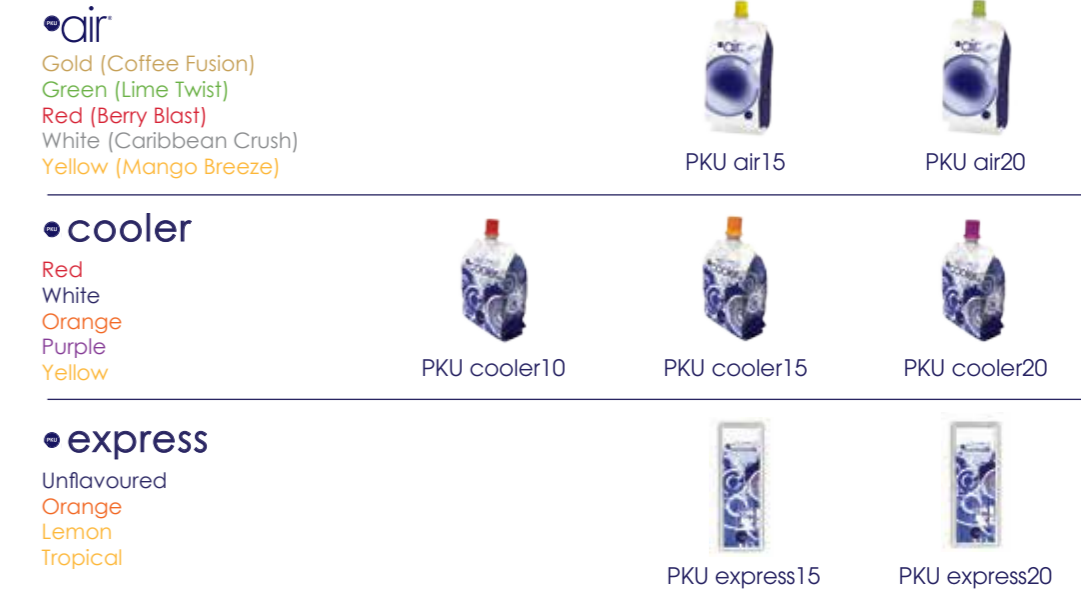

88% said they liked the smell or liked it alot*

88% said they liked the taste or liked it alot*

PKU air... a choice of pack sizes

- PKU air is available in 15g PE and 20g PE pouches
- Pack sizes can be tailored to meet your patients specific requirements

PKU air... interchangeable with our PKU range
